### Ms. Sadia Mother of Javeria Batool Grade: 9 Family Insight

"I would like to talk about one method and experience, i.e., leadership in family dynamics, in relation to Leader in Me. Family is the first enterprise in every human's life. Your family environment shapes you as an individual, a team member, and a leader. As a parent, I am so happy to see my daughter learning values like authority, kindness, patience, respect, hard work, teamwork, and many others. Her public speaking skills have been developed while sharing her thoughts at the dinner table in front of the entire family. By giving insight into childhood and family dynamics, we can determine how our experiences can influence our behavior throughout the years".

Adopting the circle of control mindset can promote a more balanced approach to managing personal life and academics. Students become adept at directing their energy and focus toward priorities while releasing unnecessary concerns about factors beyond their influence.

### A Journey Towards Personal Growth

In our story of growth, Habit 1 is like a compass, helping us choose our path wisely. Habit 2 is like a map, showing us where we want to go and how to get there. Habit 3 is like a clock, reminding us to use our time wisely and focus on what matters most.
